LinkedIn: <https://www.linkedin.com/in/rohma-shabbir-216a662ba/>

CAREER SUMMARY:

Motivated **Web & AI Development** student with a strong foundation in frontend technologies including HTML5, CSS, JavaScript (ES6+), TypeScript, React.js, and Next.js. Experienced in building responsive and user-friendly interfaces using Tailwind CSS, with a growing understanding of backend systems, API integration, and UI/UX design. Also familiar with MongoDB, Sanity CMS, and basic Python.

Currently expanding expertise in AI development, prompt engineering, and spec-driven development (SDD), with exposure to OpenAI Agent SDK and modern AI tools. Actively engaged in the Governor Sindh Initiative for Web & AI Development, with a strong focus on building scalable and intelligent applications and continuously improving technical skills.

Customer Support Representative with 5 months of experience handling international clients for du through Ruiman International. Skilled in resolving customer queries, managing high-volume interactions, and delivering excellent service across diverse customer bases. Strong communication, problem-solving, and multitasking abilities with a focus on customer satisfaction and retention.

RELEVANT PROJECTS:

Personal Portfolio Website

GitHub: <https://github.com/RohmaShabbir/Portfolio.git>

Developed a responsive personal portfolio to showcase projects, skills, and experience. Focused on clean UI/UX and performance using modern frontend technologies.

Personal AI Assistant

GitHub: https://github.com/RohmaShabbir/Ai_Assistant.git

Built a Chainlit-based AI assistant using Google Gemini 2.0 Flash model to interact with users and provide personalized responses. Integrated a custom tool to fetch live GitHub data, with support for async API calls, session management, and OAuth callbacks.

Physical AI Humanoid Robotics (Book Project)

GitHub: <https://github.com/RohmaShabbir/physical-ai-humanoid-robotics.git>

Developed a documentation-based book on Physical AI and humanoid robotics using Python, Spec-Driven Development (SDD), and Claude CLI. Focused on structured content creation, covering robotics concepts and AI integration with a spec-driven workflow.

Blog Website

GitHub: <https://github.com/RohmaShabbir/Bloggers.git>

Developed a responsive blog website using Next.js and Tailwind CSS. Implemented modern UI design with structured content layout and optimized performance for a smooth user experience.

Ramadan Coding Night (Python Challenges)

GitHub: https://github.com/RohmaShabbir/Ramadan_Coding_Night.git

Completed daily Python coding challenges focused on problem-solving and core programming concepts. Improved logic-building skills and consistency through hands-on practice during Ramadan Coding Nights.

WORK EXPERIENCE:

Practice-Based Development Experience

AI Developer & Frontend Developer | 2024 – Present

- Built multiple frontend and Python-based projects
